Press Release

New BC-0301-08 Desktop and Studio Processing Module

El Segundo, September 15, 2003: Marshall's Low-cost BC-0301-08 digital to analog module can be configured for use in desktop or studio rack mount applications. The unit features SDI (UTU-R601) to simultaneous Composite Video and S-Video D/A (8 bit) conversion. Outputs include: active SDI reclocked loopthrough, 2 video BNC and 1 S-video. The unit also includes a built in Color Bar Generator, System indicator (PAL/NTSC), and dip-switch settings for no signal (Black/Blue screen displayed), pedestal (On/Off), clipping (On/Off), and blanking (Narrow/Wide).

About Marshall Electronics Broadcast Multimedia Division

Marshall Electronics Inc., is a privately owned American company with four distinct operating units, Professional Audio Division, Cable and Connector Division, Optical Systems Division, and Broadcast / Multimedia Division. We specialize in the development, manufacture and distribution of high tech electronic products used in a wide range of professional applications. The Broadcast Division of Marshall Electronics supplies high quality LCD monitor, distribution, and conversion solutions for broadcasters around the world.
