New Low Cost Precision Digital to Analog Converter

Las Vegas April 19, 2004: Marshall Electronics will display their new cost effective BC-0301-10 precision digital to analog module. With an MSRP of \$379.95, the unit features simultaneous Composite Video and S-Video D/A (10 bit) conversion with 4x over sampling to provide superb analog images. There is also a built in Color Bar Generator, System indicator (PAL/NTSC), and dipswitch settings for Pedestal (On/Off), UV Level Control (700ma/1000ma), Clamping Position (Front Porch/Back Porch), and Clamping Delay Position (Positive/Negative). All Marshall Electronics Processing and Distribution modules include power supply and owners manual. Optional items include rack mount (V-CRM3) and base holder (V-CB1) for use in desktop applications.
