New BD-0314 SDI Distribution Amplifier

El Segundo, September 25, 2003: Marshall's affordable BD-0314 SDI Distribution Amplifier can be configured for use in desktop, studio or stand-alone applications. The unit features a single SDI (SMPTE-259M) input to 4 relocked outputs for data rates up to 540Mbs. Packaged in a durable metal case, this module can be installed in a standard 19" rack, stacked or individually used on the desktop with the optional V-CB1 holder. All connections are located in the back of the module for ease of installation. Customers report they will use this model as a repeater for long cable runs. Power supply and mounting brackets are included at a list price of \$299.00

About Marshall Electronics Broadcast Multimedia Division

Marshall Electronics Inc., is a privately owned American company with four distinct operating units, Professional Audio Division, Cable and Connector Division, Optical Systems Division, and Broadcast / Multimedia Division. We specialize in the development, manufacture and distribution of high tech electronic products used in a wide range of professional applications. The Broadcast Division of Marshall Electronics supplies high quality LCD monitor, distribution, and conversion solutions for broadcasters around the world.
