NAB New Product From Marshall Electronics NAB Booth # SU11614

New Composite or S-Video to VGA Converter

Las Vegas April 19, 2004: Marshall Electronics has announced scheduled shipments will begin in March of their new composite video or S-Video to VGA conversion module, model MC-0105. Priced at \$245.00, the MC-0105 features NTSC or PAL operation with automatic detection, transforms interlaced 525/625 images to Progressive Scan, has adaptive filtering to removes NTSC interlace artifacts with 2x over sampling for true color reproduction. The VGA output is processed as 4:4:4/RGB and automatically scales 4:3 input to 640x480 Pixel resolution or scales NTSC 16:9 input to 720x480 Pixel resolution with automatic Gamma correction and color space conversion. The user can switch between a pass through VGA signal and composite or Y/C inputs
