NAB New Product From Marshall Electronics NAB Booth # SU11614

New Low Cost VGA Distribution Amp

Las Vegas April 19, 2004: Marshall Electronics will display their new MD-0514 and MD-0512 Distribution Amplifiers for SXGA or Video signals. The MD-0514-DA is a multiformat 1 x 4 distribution amplifier whilst the MD-0512 has one input and two outputs (1x2). Both models accommodate signals with bandwidths up to 350 MHz. These compact modules can be used with screen formats up to 1920 x 1080 as VGA, SVGA, XGA, or SXGA signals. An optional HD15 to 5 BNC cable (RGB-5HD15-X) can be used for RGBHV, Y-Pr-Pb, YUV, RGB, and composite signals. When used in composite mode up to 5 independent inputs are supported, with 2 sets of five outputs on the MD-0512 and 4 sets of outputs on the MD-0514. Both models include a six-volt power supply and mounting hardware.

For further product information please contact our sales department.
