Improve your Field-of-View capabilities with Marshall Full-HD Broadcast PTZ Cameras

New CV620 offers unmatched versatility and high speed full-HD with smooth 20x Optical Zoom, 340° Pan- 120° Tilt, and a suite of professional adjustment settings.

El Segundo, California - Marshall Electronics launches a new addition to its popular Pro-Series 3G/HD-SDI Broadcast Camera line: Full-HD Broadcast PTZ Cameras CV620-WH (white) and CV620-BK (black).

Available now through Marshall's Dealer/Integrator network in a powder White (WH) or Black (BK) finish, CV620 is designed to deliver HD broadcast-quality video at fast frame-rates 59.94/60/50fps with unmatched versatility for all types of broadcast applications: Studio, Reality TV, Sportscast, Back-Stage, Conference Room, Lecture Hall, Music Venue, Behind-the-Scenes, House-of-Worship, Culinary Show, Concert Venues, Courtroom and many, many more.

"Over the past couple of years our Pro-Series POV Cameras have reached wide-spread adoption by Professional Broadcasters at most major media outlets," says Tod Musgrave, Marshall's Product Marketing Director. "...and a Broadcast-quality PTZ camera is a natural extension of this line."

The CV620 is built around a professional-grade 2 Megapixel 1/2.8" sensor and a 20x optical zoom block with smooth 340° Horizontal Pan and 120° Vertical Tilt. Broadcast adjustable settings such as Gain, White Balance, Exposure, Auto/Manual Focus, and other operational adjustments create tremendous flexibility and expands practical use-case scenarios. Versatile mounting options included protective table mounts, wall-bracket (included) and ceiling mount (included) with flippable image options.

Marshall's Broadcast PTZ Cameras are controllable via RS-232 (Visca) by Joystick Keyboard (Marshall PN: VS-PTC-150), Free RS-232/USB Software Program, RS-485 (Pelco) Joystick Controller (Marshall PN: VS-TKC-100 or VS-PTC-50) or IR Remote included.

Easy adjustable resolutions 1920x1080i, 1920x1080p, and 1280x720p and frame-rates 60, 59.94, 50, 30, 29.97, 25fps with connection options that include 3G-SDI, HD-SDI, HDMI (DVI), Component (VGA), and Composite video outputs.

The CV620 will be on display at IBC 2015 booth 11.D20. It is also offered in USB 3.0 enabled bundles, please call for more information.
