Marshall Extends Popular PROSeries HD POV Camera Line With New Genlock Models

Marshall's new Pro-Series POV Cameras will be displayed at upcoming IBC Show in Amsterdam, Sept 9-13th, 2016.

Torrance, CA – Marshall Electronics, a leading manufacturer of Broadcast A/V equipment, announces new additions to the popular ProSeries HD POV Camera line. The new CV565-MGB (M12-Mount) Miniature Broadcast and CV365-CGB (CS Mount) Compact Broadcast Cameras support Tri-level frame sync up to 1080p59.94 (3G) at the camera level and outputs Full-HD 1920x1080 3G/HDSI and HDMI signals.

The CV565-MGB and CV365-CGB utilize state-of-the-art 2.5 Megapixel sensors to capture sharp, vivid HD color images at high-speeds with improved low light capability. The CV565-MGB Mini Broadcast Camera is built around a 1/3" 2.5MP sensor, set in a 1 ½-inch body with 3.7mm (interchangeable) Lens. The CV365-CGB Compact Broadcast Camera also features a 1/3" 2.5MP sensor, housed in a 2 ½-inch body with CS/C lens mount and Auto or Manual Iris control. Both models offer flexibility in HD lens options to achieve a wide range of Angle-of-View perspectives.

These next generation models also support embedding audio on 3G/HD-SDI and HDMI feeds simultaneously when captured via 3.5mm TRS stereo input (2.5V supplied power) for local sound capture and embedding.

Marshall's new CV565-MGB and CV365-CGB will be displayed at IBC Amsterdam, Sept 9-13th. The new Pro-Series POV Cameras are available now through Marshall Electronics Dealers and Distributors.

About Marshall Electronics

Marshall Electronics Inc. is a privately owned American company with five distinct operating units: Professional Audio, Cable/Connector, Optical Systems, IPTV and the Broadcast A/V Division.
