Improve your Field-of-View capabilities with the New Marshall Full-HD Broadcast PTZ Camera

New CV620 offers unmatched versatility and high speed full-HD with smooth 20x Optical Zoom, 340° Pan- 120° Tilt, and a suite of professional adjustment settings.

EL SEGUNDO, CA - Marshall Electronics launches a new addition to its popular Pro-Series 3G/HD-SDI Broadcast Camera line: Full-HD Broadcast PTZ Cameras CV620-WH (white) and CV620-BK (black).

Available now through Marshall's Dealer/Integrator network in a powder White (WH) or Black (BK) finish, CV620 is designed to deliver HD broadcast-quality video at fast frame-rates 50/60/59.94fps with unmatched versatility for all types of broadcast applications: Studio, Reality TV, Sportscast, Back-Stage, Conference Room, Lecture Hall, Music Venue, Behind-the-Scenes, House-of-Worship, Culinary Show, Concert Venues, Courtrooms and many, many more.

"Over the past couple of years our Pro-Series Cameras have reached wide-spread adoption by Professional Broadcasters at most major media outlets," says Tod Musgrave, Product Marketing Director, HD POV Cameras. "and a Broadcast-quality PTZ camera is a natural extension of this line."

The CV620 is built around a professional-grade 2 Megapixel 1/2.8" sensor and a 20x optical zoom block with smooth 340° Horizontal Pan and 120° Vertical Tilt. Broadcast adjustable settings such as Gain, White Balance, Exposure, Auto/Manual Focus, and other operational adjustments create tremendous flexibility and expands practical use-case scenarios. Versatile mounting options included protective table mounts, wall-bracket (included) and ceiling mount (included) with flippable image options. Marshall's Broadcast PTZ Cameras are controllable via RS-232 (Visca) by Joystick Keyboard (Marshall PN: VS-PTC-150), Free RS-232/USB Software Program, RS-485 (Pelco) Joystick Controller (Marshall PN: VS-TKC-100 or VS-PTC-50) or IR Remote included.

Easy adjustable resolutions 1920x1080i, 1920x1080p, and 1280x720p and frame-rates 50, 59.94, 60, 25, 29.97, 30fps with connection options that include 3G-SDI, HD-SDI, HDMI (DVI), Component (VGA), and Composite video outputs.

The CV620 will be on display at the Marshall Electronics booth #C7439 at NAB, April 18th – 21st. It is also offered in USB 3.0 enabled bundles, please call for more information.
