Press Release

New V-LCD56MD

High Resolution Camera Top Monitor with Modular Input / Output

El Segundo, May 29, 2012
Marshall's Next Generation 5.6" Modular Monitor is Now Shipping.

Marshall's new high resolution 5.6" Modular Camera Top Monitor with advanced features is now available at a dealer near you. This state of the art monitor features a High Resolution 1280 x 800 LED Backlit IPS Panel boasting 300-nit Brightness with Adjustable Backlight. The V-LCD56MD is available in three different Modular Configurations: The V-LCD56MD-O includes the MDO-3G Output Module with two 3G-HDSI Outputs converted from the HDMI Input (HDCP compliant). The V-LCD56MD-3G includes the MD-3GE Input Module with Loop through. The V-LCD56MD has no preinstalled Module. Either optional module can be easily added in the field by the user for your convenience.

Building on the user-friendly features of previous V-LCD monitors, the V-LCD56MD model includes the New Icon Assisted Menu System, Waveform Display with Dual Audio Bars, Headphone Output, Variable Pixel-to-Pixel Function plus Marshall's industry leading PEAKING Filter now in four colors for easier focus assist. Other features include multiple DSLR Presets, six User Presets, Adjustable IRE Clip Guide, and Backlight Control, just to name a few. A wide variety of optional Battery Adapters are available.

This module camera-top monitor is a **must** for serious photographers, videographers, producers and directors alike. Contact your local broadcast multimedia dealer for more details and pricing.
