

MINI HD-SDI CAMERA PROVIDES 1080P RESOLUTION

By [James Carroll](#)
Senior Web Editor

The CV500-M miniature camera from Marshall Electronics delivers full 1080p resolution and low noise images for use in all types of [industrial](#) and OEM applications. The camera features a Sony 2.2 megapixel [CMOS image sensor](#) and Marshall miniature high-resolution prime lenses. Its sensor enables the HD-SDI camera to operate at a minimum of 0.5Lux (color) or 0.1Lux (B/W), which enables it for use in low light environments. In addition, the camera features progressive scan and 1920x1080p/30fps or 1280x720p/60fps.
